

Cauchy Crofton

Get more information

LENGTH CALCULATED

Load an image form gallery

Select a point on the image.

The curve will be recognized as the part of the image that is the same color as this point

Switch to display or not the components generated by the app

The image is being pixelized to make the calculations faster, you can select the **width of the image**

Reset the **default image** width (a good ratio resolution/calculation time)

Dots:
add mode, neutral mode, delete mode

Dots:
Delete all, Automatic detection

Set the length of the reference on the image
Set the length unit
Hide keyboard & calculate
